Especially suitable for small groups to study or for couples to read and reflect upon together, this book examines the impact Western culture has on those trying to live a Godly life and compares Western lifestyle to the blueprint Christian lifestyle as detailed in the Bible.

Tom and Christine help their audience to create their own life's mission statement and set goals for living in and for God's Kingdom. A thought-provoking and potentially life-changing book for all those suffering from the busy-ness of everyday life in the West.
