Our network is growing!

The world of mission is changing rapidly. Opportunities for involvement are at unprecedented levels throughout church history. It's thrilling to hear reports of initiatives, both locally and right around the world, where God is working through churches and groups as they spread the gospel in ways relevant to the diverse situations where they are engaged. As a network our aim is to help put *mission at the heart of the church and the church at the heart of mission*.

There is so much we can learn from each other. Often the issue we face today was worked through by someone else a few years ago and we can avoid having to reinvent the wheel. Or, there are common needs within a number of groups but they don't have the individual resources nor the capacity to develop joint initiatives.

Belonging to Global Connections brings you into contact with some of the best thinkers and practitioners involved in mission. Through a range of resources we facilitate exchanges of ideas and experiences and direct our members to relevant resources and support.

what our members say...

"I believe hugely in all the great work Global Connections is doing. Areas I value especially are the personal encouragement given by staff, the seriously useful shared interest groups, and the way Global Connections identifies cutting edge issues and acts to address them."

Ted Lankester, InterHealth

"The Global Connections network will not only link your local church to the combined experience of past and present mission workers but will also enable your church to participate in shaping the future face of missionary endeavour in the 21st Century."

Mike Frisby, Newfrontiers Church Leader
