

## Related networks

As the UK evangelical network for world mission, Global Connections is linked to other networks, both in the UK and worldwide.

In the UK, we are associated to two other partner networks, the Evangelical Alliance (EA) and the African and Caribbean Evangelical Alliance (ACEA). We try to work closely with these two partners on strategic issues relating to mission.

Within Europe we are members of the European Evangelical Missionary Alliance (EEMA) which brings together other networks across Europe with similar vision to ours. Through them we have close links to the European Evangelical Alliance (EEA) which works in partnership with the EEMA.

Internationally we are members of the World Evangelical Alliance Mission Commission (WEA-MC). We are also closely linked to the Lausanne movement and provides a link for Lausanne within England.
