

David's Desk

For practical advice about mission administration, useful internet sites and finance issues in a global context

Since I started at Global Connections in January 2001, I have been collecting nuggets of information which make my job easier. I have passed some of these on to our members through the pages of our newsletter in my 'David's Desk' feature, as well as in our [Churches and Small Agencies Forum](#). However, our website now gives me scope to share some of these in greater depth. So here's some of those nuggets. Just click on each link to find out more.

If there is any other issue you think should be included here, please [let me know](#).
