We believe that there are ways in which Christians in UK can lighten some of the burdens facing pastors in East Africa (DR Congo, Burundi, Rwanda, Uganda, Kenya, Tanzania and Malawi) thus releasing them for ministry. This includes helping pastors buy bicycles, producing commentaries in the main local languages, seed funding small income generation schemes for pastors' wives, running refresher courses for pastors and wives together and even providing mosquito nets for their families. A bimonthly News and Prayer newsletter seeks to keep readers up to date with news for prayer from these countries.
